RE: ENQUIRING FOR A VACANCY ON CYBER SECURITY ENGINEER

My name is samuel Mwangi and I am interested and looking for a vacant position in the sacco as a Cyber security Engineer. I am as of now utilized as a freelance ICT specialist working with any available client worldwide. I accept that the aptitudes and encounters I have picked up at this position make me an ideal possibility for being a cyber security engineer and be able to serve withing the organisation.

As a freelancer, I have created solid composition and altering aptitudes. For instance, one of my primary obligations is to design and develop web applications for my clients of which I feel they are the future of information sharing and thus I would really love to be a part of the team that will be in the forefront digitizing all services of Nyandarua county government. In short,I am a software engineer who would like to see through the rise and use of safe and secure Information Management Systems in the organization.

This obligation requires careful composition and altering aptitudes, and a capacity to pass on complex legitimate thoughts plainly. I have arranged many bits of enactment and got acclaim for the clearness of my composition.

I have additionally increased broad involvement with legitimate and strategy research in Cyber Security. As cyber crimes are currently on the rise, My involvement with the sacco will lead to properly and highly drafted Cyber security policies and also oversee thorough penetration testing of the sacco's software or any web applications to make sure that they are not manipulated by any rogue user claiming to be part of the 'good ' kenyan. I got intensely associated with the some clients both locally and abroad to make sure that they infrastructure is well protected against hackers. I have had a number of cyber security certifications including but not limited to **Ethical Hacking, Computer and Networks Security** and currently I am continuing my education in Networks security with an aim of being the best Networks Security Professional available in the county and in the country at large. I am consistently anxious to study state enactment, looking into these themes individually to turn out to be more than a success to tower sacco.

I am sure that my involvement with the Sacco and my exploration and composing aptitudes qualify me for the post. In the event that you might want any extra information, I have additionally encased my curriculum Vitae. I anticipate meeting with you and examining my capabilities in more detail.

Truly,
Samuel Mwangi,
